

# Motif™

Personalize vertical surfaces with  
a modular collaborative panel system.

Motif's inspired design complements any interior aesthetic while its functional writing surface enhances collaboration.

---

### **Collaborate Anywhere**

As the need for collaboration grows, teams need more functional spaces to work.

Motif is a high-performance collaborative panel system that can be configured in countless ways to turn unused wall spaces into places where teams express and share ideas together. Three standard sizes allow for flexible compositions in a variety of locations, from traditional settings such as private offices and conference rooms, to more innovative placements in cafés, lounge areas and corridors.

### **Enhance Design**

Use Motif to express an organization's culture or design style using combinations of five neutrals and five accent patterns – or your own custom images or colors. Classic neutral tones allow Motif to integrate quietly into any new or existing space while accent colors, with specially-designed grid patterns, were selected to add a degree of energy and stimulus to collaborative sessions – an ideal combination of design and function.

## Countless Configurations

Motif panels provide an elegant, artful addition to any interior space. Arrange the three standard sizes to create countless compositions and artistic expressions. Use Motif to craft thoughtful negative space with positive colors and patterns or to explore themes of repetition, contrast, balance and symmetry. Position panels to flow one into the next or add bursts of color to accent a collaborative wall.

## Polyvision CeramicSteel

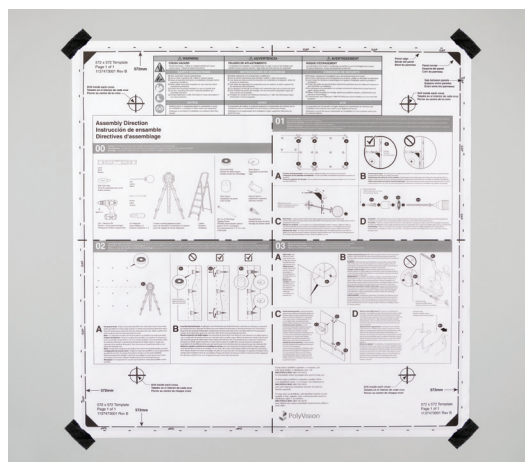

Combining the finest qualities of porcelain and steel, Motif panels are made with Polyvision CeramicSteel. The smooth glass-like surface is magnetic, highly legible and easy to clean. Polyvision CeramicSteel is resistant to scratches, stains, fire and bacteria. Colors and imaging will never fade, providing lasting durability for every design. Polyvision CeramicSteel is 99.9% recyclable.

## Hassle-free Installation

Motif panels are lightweight and easy to install with no visible mounting hardware. Templates, spacers and a unique mounting system make it nearly effortless to achieve the desired configuration. As needs evolve, panels can be reconfigured for another space or existing compositions can be refreshed with new panel colors.

## Ideas for Use

Leverage vertical wall space in all types of collaboration areas:

- Conference rooms
- Design studios and project rooms
- Classrooms and training spaces
- Libraries
- Enclaves
- Private offices and individual workspaces
- Lounge areas and lobbies
- Administrative spaces
- Cafés and breakrooms
- Corridors and hallways

## Features

- Frameless
- Lightweight
- Easy to install
- Horizontally and vertically configurable
- 0.24" / 6 mm spacing between panels
- Concealed mounting
- Colorfast—will not fade
- Easy to clean
- Friction-free writing surface
- Strong magnetic capability
- Smooth, inert surface
- Scratch, stain, bacteria, chemical and fire resistant

Standard Colors\* + Sizes

	Dimensions	Thickness	Weight
Extra large rectangle panel	90.75" x 45.25" 2306 mm x 1150 mm	0.157" / 4 mm	46.78 lbs / 21,22 kg
Large square panel	45.25" x 45.25" 1150 mm x 1150 mm	0.157" / 4 mm	23.32 lbs / 10,58 kg
Small square panel	22.5" x 22.5" 572 mm x 572 mm	0.157" / 4 mm	5.7 lbs / 2,62 kg

\*Actual colors may vary.  
\*\*Custom colors available upon request. Surface Imaging only available on small square and large square panels. For information on Surface Imaging, visit polyvision.com.

## Surface Imaging + Customization

Use Motif to express your organization's own creativity. In addition to the standard neutrals and accent colors, custom artwork, company logos and images can be printed on any small square and large square Motif panels. Polyvision's state-of-the-art printing technology means colors and images will not fade over time, providing long-lasting inspiration and overall design appeal.

## Hygienic Surface

CeramicSteel is a nonporous surface that is naturally resistant to bacteria and viruses. Coils, sheets, and panels with type U finish are also available in Polyvision's Hygienic CeramicSteel — a proprietary finish that incorporates an additive of silver micro particles formulated to create a self-sanitizing surface.

## Sustainable

Polyvision's e<sup>3</sup> CeramicSteel is Cradle to Cradle Certified™ Silver, highlighting the sustainable manufacturing process of the product. CeramicSteel is also 99.9% recyclable. CeramicSteel is also certified by SCS Global Services as Indoor Advantage Gold™, meeting strict indoor air quality (IAQ) chemical emission limits for volatile organic compounds (VOCs).

## Customizable

CeramicSteel type H and U can be customized to support specific sheet sizes, custom colors and digital printing. Incorporate our material into your whiteboard design for premium aesthetics and functionality.

## CeramicSteel Features and Benefits

- Smooth, inert surface
- Made from inorganic materials
- Magnetic
- Colorfast, will never fade
- Resistant to bacteria, graffiti, fire, scratches, stains, and chemicals
- Easy to clean
- Releases zero VOCs

# Corporate Responsibility

Polyvision believes that sustainability is an important business practice in today's global economy. In line with this belief, we strive for continuous improvement in all areas of environmental stewardship — responsible use of raw materials and natural resources, manufacturing processes and operation of all facilities — to reduce the impact of our activities on the environment. In the end, we believe we are all in this together, working to protect and cultivate the world we live in to make more sustainable choices.

## Manufacturing Excellence

All Polyvision facilities are compliant with international standards and certified for Quality, Environment, Health and Safety. Our environmental goals aim to reduce and manage our global environment footprint in the areas of VOC emission, water use, waste output and CO<sub>2</sub> emission.

- ISO 9001 Quality Management Systems Certification
- ISO 45001 Occupational Health & Safety Management Certification

## Ensuring A Sustainable Future

In addition to safe and sustainable manufacturing processes, Polyvision holds our products to the highest standards. We are third-party certified for our CeramicSteel surface by:

- Cradle to Cradle Certified — releases no harmful chemicals into the environment, safeguards clean water, materials are safe for humans and the environment
- Indoor Air Quality Certified to SCS.EC10.3-2014 v4.0
- ISO 14001 Environmental Management Certification
