

Motif™ Motif™ Soft

A versatile combination of CeramicSteel or decorative sound-absorbing panels to transforms useable wall spaces into collaborative areas with teams can express ideas with limitless configurations and design options.

Motif and Motif Soft provide function and design in a mix and match offering of CeramicSteel whiteboards and tackable sound absorbing panels.

Functional Design

Color and functionality can be added to any area with our high-performance Motif Collection that can be configured into countless ways to turn unused wall space into places where teams express and share ideas together. Our Motif Collection is designed with either a double-sided ceramicsteel panel or Motif Soft with a sound-absorbing panel that adds functional design to collaborative spaces. The smooth CeramicSteel surface makes it easy to wipe clean and minimizes the potential for shared germs. The sound absorbing tackable panels add color sound diffusing usefulness to open spaces.

Versatility

With a variety of sizes, colors, configurations and mounting options, Motif and Motif Soft fit anywhere, whether it's an office setting, meeting room or any collaboration space.

Platinum Solid Gloss in the Side Divider / Top Mount Setup and Arctic White Gloss in the Privacy / Top Mount Setup

Countless Configurations

Motif Collection panels provide an elegant, artful addition to any interior space. Arrange the three standard sizes to create countless compositions and artistic expressions.

Use Motif to craft thoughtful negative space with positive colors and patterns or to explore themes of repetition, contrast, balance and symmetry. Position panels to flow one into the next or add bursts of color to accent a collaborative wall.

Design any area into a spontaneous collaborative zone with versatility and functionality.

Motif Ceramic Features

- Panels made from sustainable, nonporous, durable material
- Resistant to stains, scratching, ghosting, bacteria, chemicals and fire
- Can be written on with dry-erase, semipermanent, water-soluble or permanent markers
- Strong magnetic capability
- Concealed mounting
- Lightweight and easy to install
- Horizontally and vertically configurable
- Offered in a variety of colors and patterns.

Product Features

Enhance Design

Use our Motif Collection to express an organization's culture or design style using combinations of 2 materials, Ceramicsteel and Soft material both available in different colors. From neutral colors and five accent patterns in the Ceramicsteel material to 5 different plain color and a woodlook pattern in the Soft material. This variety allows our Motif Collection to create a degree of energy and stimulus to collaborate sessions — an ideal combination of design and function.

Motif Soft Features

- Manufactured from 100% recycled solution-dyed polyester (made from 60% recycled PET bottles)
- Lightweight and easy to install
- With it's sound absorbing properties it creates a noise reduction and the needed privacy.
- Offered in a variety of colors and patterns
- Tackable

Specifications

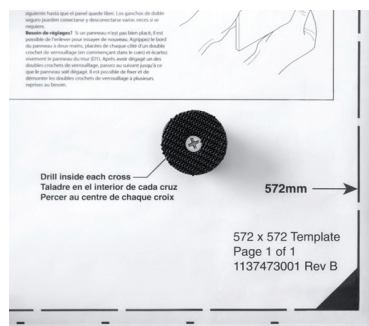

Mix and Match

With our high-performance collaborative panel set made from CeramicSteel and acoustic panels, you can configure them in countless ways and turn unused wall space into places where teams can express and share ideas.

A

B

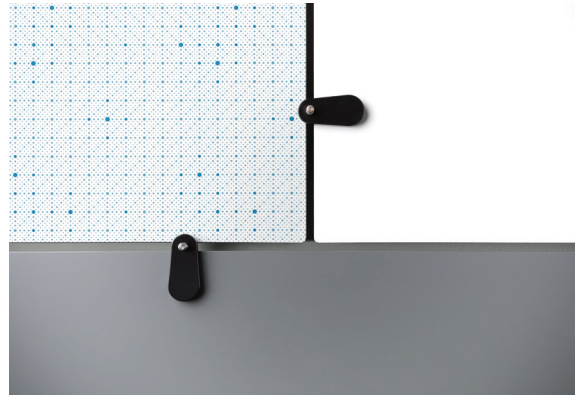

Hassle-free Installation

Motif panels are lightweight and easy to install with no visible mounting hardware. Templates, spacers and a unique mounting system make it nearly effortless to achieve the desired configuration. As needs evolve, panels can be reconfigured for another space or existing compositions can be refreshed with new panel colors.

Hygienic Surface

CeramicSteel is a nonporous surface that is naturally resistant to bacteria and viruses. Coils, sheets, and panels with type U finish are also available in Polyvision's Hygienic CeramicSteel — a proprietary finish that incorporates an additive of silver micro particles formulated to create a self-sanitizing surface.

Sustainable

Polyvision's e³ CeramicSteel is Cradle to Cradle Certified™ Silver, highlighting the sustainable manufacturing process of the product. CeramicSteel is also 99.9% recyclable. CeramicSteel is also certified by SCS Global Services as Indoor Advantage Gold™, meeting strict indoor air quality (IAQ) chemical emission limits for volatile organic compounds (VOCs).

Customizable

CeramicSteel type H and U can be customized to support specific sheet sizes, custom colors and digital printing. Incorporate our material into your whiteboard design for premium aesthetics and functionality.

CeramicSteel Features and Benefits

- Smooth, inert surface
- Made from inorganic materials
- Magnetic
- Colorfast, will never fade
- Resistant to bacteria, graffiti, fire, scratches, stains, and chemicals
- Easy to clean
- Releases zero VOCs

Corporate Responsibility

Polyvision believes that sustainability is an important business practice in today's global economy. In line with this belief, we strive for continuous improvement in all areas of environmental stewardship — responsible use of raw materials and natural resources, manufacturing processes and operation of all facilities — to reduce the impact of our activities on the environment. In the end, we believe we are all in this together, working to protect and cultivate the world we live in to make more sustainable choices.

Manufacturing Excellence

All Polyvision facilities are compliant with international standards and certified for Quality, Environment, Health and Safety. Our environmental goals aim to reduce and manage our global environment footprint in the areas of VOC emission, water use, waste output and CO₂ emission.

- ISO 9001 Quality Management Systems Certification
- ISO 45001 Occupational Health & Safety Management Certification

Ensuring A Sustainable Future

In addition to safe and sustainable manufacturing processes, Polyvision holds our products to the highest standards. We are third-party certified for our CeramicSteel surface by:

- Cradle to Cradle Certified — releases no harmful chemicals into the environment, safeguards clean water, materials are safe for humans and the environment
- Indoor Air Quality Certified to SCS.EC10.3-2014 v4.0
- ISO 14001 Environmental Management Certification
