Sans™ Collection

EMEA + APAC

Collaborate freely with a thoughtfully designed,
high-performing, frameless writing board.

Sans Collection provides more options for frameless writing boards to support the ways people express ideas.

Define Collaboration

Collaboration means working together—throwing ideas into the mix and onto the wall. Made with highly durable CeramicSteel, Sans and Sans Round are available in various sizes, depths and colors to bring an element of design into any space.

Frameless Design

With a thin profile and frameless design, Sans and Sans Round appear as if they are floating on the wall. Precision-cut, sealed edges and simple z-bracket installation with no exposed hardware make both products a modern alternative to the traditional framed whiteboard.

Sophisticated + Functional

With functionality in mind, the smooth glass-like surface serves as an avenue for communication and a centerpiece of design. The clear marker-to-whiteboard color contrast offers exceptional readability. Sans and Sans Round are also magnetic, easy to clean, fully scratch resistant and durable, featuring an expected lifespan of more than 50 years.

Platinum Solid Gloss

Features

· Frameless, floating edge

· Concealed mounting

· Highly durable

· Surface made from inorganic materials

· Easy to clean

· Colorfast—will not fade

· Strong magnetic capability

· Scratch, bacteria, chemical and fire resistant

· Smooth, inert surface

· Sophisticated aesthetic

Sans Round Arctic White

Square Corner

Rounded Corner

Choose Your Size

Sans, the original frameless whiteboard, sits at 13mm thick, while **Sans Round** is designed with a thinner profile, about half the depth of Sans and with rounded corners. Both products can be configured in horizontal and vertical orientations and are available in a variety of sizes ideal for the modern workplace.
Standard Colors* + Sizes

Product	Dimensions	Thickness	Weight
Sans 1220	1185 mm x 1220 mm	13 mm	25 kg
Sans 1830	1185 mm x 1830 mm	13 mm	37 kg
Sans 2420	1185 mm x 2420 mm	13 mm	44 kg
Sans Round 1220	1185 mm x 1220 mm	6.5 mm	12.5 kg
Sans Round 1830	1185 mm x 1830 mm	6.5 mm	18 kg
Sans Round 2420	1185 mm x 2420 mm	6.5 mm	24 kg

The Edge of Expression

Choose from a variety of edge colors to give frameless writing surfaces unexpected depth. Each accent color is applied to precision-cut edges with a durable lacquer and matches Steelcase finishes for seamless integration into any project.

Surface Design

Polyvision offers enhanced opportunities for creativity and customization. In addition to the five standard surface colors and accented edges, Polyvision Studio can create bespoke designs including custom artwork, logos and images using state-of-the-art digital printing technology. No matter the environment, Surface Imaging is ideal for long-lasting inspiration and overall design appeal.

Sans Round Arctic White

Hygienic Surface

CeramicSteel is a nonporous surface that is naturally resistant to bacteria and viruses. Coils, sheets, and panels with type U finish are also available in Polyvision's Hygienic CeramicSteel — a proprietary finish that incorporates an additive of silver micro particles formulated to create a self-sanitizing surface.

Sustainable

Polyvision's e^3 CeramicSteel is Cradle to Cradle Certified™ Silver, highlighting the sustainable manufacturing process of the product. CeramicSteel is also 99.9% recyclable. CeramicSteel is also certified by SCS Global Services as Indoor Advantage Gold™, meeting strict indoor air quality (IAQ) chemical emission limits for volatile organic compounds (VOCs).

Customizable

CeramicSteel type H and U can be customized to support specific sheet sizes, custom colors and digital printing. Incorporate our material into your whiteboard design for premium aesthetics and functionality.

CeramicSteel Features and Benefits

- Smooth, inert surface
- Made from inorganic materials
- Magnetic
- Colorfast, will never fade
- Resistant to bacteria, graffiti, fire, scratches, stains, and chemicals
- Easy to clean
- Releases zero VOCs

Corporate Responsibility

Polyvision believes that sustainability is an important business practice in today's global economy. In line with this belief, we strive for continuous improvement in all areas of environmental stewardship — responsible use of raw materials and natural resources, manufacturing processes and operation of all facilities — to reduce the impact of our activities on the environment. In the end, we believe we are all in this together, working to protect and cultivate the world we live in to make more sustainable choices.

Manufacturing Excellence

All Polyvision facilities are compliant with international standards and certified for Quality, Environment, Health and Safety. Our environmental goals aim to reduce and manage our global environment footprint in the areas of VOC emission, water use, waste output and CO_2 emission.

- ISO 9001 Quality Management Systems Certification
- ISO 45001 Occupational Health & Safety Management Certification

Ensuring A Sustainable Future

In addition to safe and sustainable manufacturing processes, Polyvision holds our products to the highest standards. We are third-party certified for our CeramicSteel surface by:

- Cradle to Cradle Certified — releases no harmful chemicals into the environment, safeguards clean water, materials are safe for humans and the environment
- Indoor Air Quality Certified to SCS.EC10.3-2014 v4.0
- ISO 14001 Environmental Management Certification
