

ToolBar Collection

Amp up collaboration with a sleek accessory kit.

The ToolBar is a sophisticated, all-in-one accessory kit that keeps erasers and markers or chalk always at hand.

Collaboration Enhanced

The right tools are essential to collaboration. Without them, meetings and lessons are often stalled or disrupted. Now, users can spend less time searching for tools and more time collaborating and expressing ideas with Polyvision's ToolBar — a sophisticated, all-in-one storage system that keeps erasers and markers or chalk always at hand.

It's collaboration, enhanced.

Intentional Design for Intuitive Use

The ToolBar is an elegant design element that enhances the functionality of any markerboard. With a unique docking station, it offers a thoughtful home for a magnetic eraser and markers or chalk, ensuring tools stay organized and secure.

The ToolBar is intuitive to use, easy to clean and provides users with the freedom to orient the kit anywhere on the board. With a design that feels good to the touch, it blends functionality and a premium aesthetic.

ToolBar Collection

ToolBar Mini

Compact design to support smaller work spaces and personal writing boards.

Round magnetic eraser fits effortlessly in the docking station

ToolBar

Patented design to keep writing tools in place

Featuring a premium finish, the versatile ToolBar can be positioned both horizontally or vertically

Flow™ in White Gloss

Always Close at Hand

The ToolBar gives teams the tools they need to create and innovate. Gone are the days of scattered markers and lost erasers — each tool has its place.

Creative design. Practical solution. A ToolBar for every surface and space.

Make Your Mark

The ToolBar Collection is designed in two models to support small and large format writing applications. While providing optimal functionality, and a modern aesthetic, ToolBar won't protrude into the room like traditional accessories

Standard colored or neon markers and chalk sticks fit snugly in the ToolBar's patented design which prevents markers from rolling together so individual colors are easy to identify, select and put back.

Keep your eraser clean

Erasers arrive assembled with a microfiber cloth. For optimal performance, keep your eraser clean and free of residue. The kit includes two additional microfiber cloths to switch out when one gets worn or dirty. Once removed, microfiber cloths can be washed for reuse.

Product Features

The magnetic eraser's round design fits nicely in any hand and encourages a circular motion when in use. It glides smoothly into a nook on the ToolBar, making it easy to grab at a moment's notice and return to the docking station for safekeeping. The base features a microfiber cloth, which studies show erase three times better than felt erasers. The cloth can be washed or replaced to extend the life of each eraser without losing its function.

Streamline your writing experience.

Hygienic Surface

CeramicSteel is a nonporous surface that is naturally resistant to bacteria and viruses. Coils, sheets, and panels with type U finish are also available in Polyvision's Hygienic CeramicSteel — a proprietary finish that incorporates an additive of silver micro particles formulated to create a self-sanitizing surface.

Sustainable

Polyvision's e³ CeramicSteel is Cradle to Cradle Certified™ Silver, highlighting the sustainable manufacturing process of the product. CeramicSteel is also 99.9% recyclable. CeramicSteel is also certified by SCS Global Services as Indoor Advantage Gold™, meeting strict indoor air quality (IAQ) chemical emission limits for volatile organic compounds (VOCs).

Customizable

CeramicSteel type H and U can be customized to support specific sheet sizes, custom colors and digital printing. Incorporate our material into your whiteboard design for premium aesthetics and functionality.

CeramicSteel Features and Benefits

- Smooth, inert surface
- Made from inorganic materials
- Magnetic
- Colorfast, will never fade
- Resistant to bacteria, graffiti, fire, scratches, stains, and chemicals
- Easy to clean
- Releases zero VOCs

Corporate Responsibility

Polyvision believes that sustainability is an important business practice in today's global economy. In line with this belief, we strive for continuous improvement in all areas of environmental stewardship — responsible use of raw materials and natural resources, manufacturing processes and operation of all facilities — to reduce the impact of our activities on the environment. In the end, we believe we are all in this together, working to protect and cultivate the world we live in to make more sustainable choices.

Manufacturing Excellence

All Polyvision facilities are compliant with international standards and certified for Quality, Environment, Health and Safety. Our environmental goals aim to reduce and manage our global environment footprint in the areas of VOC emission, water use, waste output and CO₂ emission.

- ISO 9001 Quality Management Systems Certification
- ISO 45001 Occupational Health & Safety Management Certification

Ensuring A Sustainable Future

In addition to safe and sustainable manufacturing processes, Polyvision holds our products to the highest standards. We are third-party certified for our CeramicSteel surface by:

- Cradle to Cradle Certified — releases no harmful chemicals into the environment, safeguards clean water, materials are safe for humans and the environment
- Indoor Air Quality Certified to SCS.EC10.3-2014 v4.0
- ISO 14001 Environmental Management Certification
